Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a fluid processing set, classified in class 210, subclass 257.1.
- II. Claims 12-23, drawn to a method for purifying a biological fluid, classified in class 210, subclass 668.

The inventions are distinct, each from the other because:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus of Group I could be used to carry out another process, different from that of Group II. For example, this processing set could be used to purify fluids other than biological fluids (e.g. waste water). Also, this processing set of Group I could be used in the absence of a photochemical agent, which agent is required by the process of Group II (see claim 12, line 22).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by

their different classification and divergent subject matter, and because the searches for the individual Groups are not coextensive, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to I. Cintins whose telephone number is (703) 308-3840. The examiner can normally be reached on Monday through Thursday from 7:30 AM to 6:00 PM.

The fax phone numbers for this art unit are: (703) 305-3599 for "Official" faxes after Final Rejection; (703) 305-7718 for all other "Official" faxes; and (703) 305-3602 for "Draft" and other "Unofficial" faxes.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0661.
